REPORT OF THE BOARD

FINDINGS AND ORDER

1. Hearing Date and Place: This cause came on for hearing before the Virginia Gas and Oil Board (hereinafter "Board") at 9:00 a.m. on March, 17, 1992, at the Virginia 4-H Center, Abingdon, Virginia.

2. Appearances: Richard A. Counts, Attorney, appeared for the Applicant, and Sandra B. Riggs, Assistant Attorney General, appeared for the Board.

3. Notice and Jurisdiction: The Board finds that it has jurisdiction over the subject matter. The Board also finds that the applicant has exercised due diligence to locate and provide notice to all persons/companies entitled to notice of this proceeding.

4. Relief Requested: Applicant requests an exception to statewide spacing requirements set forth in Section 45.1-361.17 of the Code of Virginia for Well Number VP-2343. The Applicant requests the Board's consent to drill Well Number VP-2343 closer than 2640 feet to Well Numbers V-2325 and 133765.

5. Amendment: None.

6. Reasons Relief Should be Granted: Evidence presented on behalf of the Applicant shows, and the Board finds, that based on the deposition of the common sources of supply anticipated between

surface and total depth projected to be drilled, the proposed location exception represents the optimum location to recover commercially productive hydrocarbons underlying the drilling and spacing unit.

A qualified landman testified that the location exception was necessary to comply with an Environmental Impact Statement and Environmental Assessment conducted upon United States Forest Service lands within the Jefferson National Forest. The landman also testified that the location exception was necessary due to environmental constraints, accommodation of other mineral interests and effective land management practices.

A qualified petroleum geologist testified that the granting of the location exception was in the best interest of preventing waste, protecting correlative rights and maximizing recovery of hydrocarbons underlying the drilling and spacing unit.

7. Relief Granted: The requested relief in this cause be and hereby is granted allowing the applicant to permit and drill Well Number VP-2343 within 2465.64 feet of Well Number V-2325 and within 2456.91 feet of Well Number 133765.

8. Findings: That the well location exception, in accordance with the foregoing, is necessary to prevent waste, protect correlative rights and to generally effect the purposes of the Virginia Gas and Oil Act.

9. Effective Date: This Order shall be effective on the date of its execution.

10. Done and executed this 2<sup>nd</sup> day of May, 1992, by a majority of the Virginia Gas and Oil Board.

11. Done and performed this 2<sup>nd</sup> day of May, 1992, by Order of this Board.
